

Regular service helps your car and the air.

Maintaining your car improves performance,
plus helps to reduce pollution and
traffic congestion due to breakdowns.
So keep it up because –

It all adds up to cleaner air

Every 3 months, every 3,000 miles or every 1.3 million breaths.

Changing your oil and regular maintenance mean a cleaner running engine.

It's true. Regular oil changes, tune-ups and maintenance can help improve your vehicle's performance and gas mileage, extend its life and increase its resale value. It can also help reduce traffic congestion due to preventable breakdowns. But possibly most important of all, taking good care of your car could help reduce emissions by more than half. And that should make you breathe a lot easier between oil changes. So keep it up because—

It all adds up to cleaner air

There's more riding on your tires than You thought.

Properly inflated tires can save money, gas and the air.

It's just a simple little thing but it can mean a lot. Keeping your vehicle's tires inflated to the maximum recommended pressure can save you money by increasing your gas mileage. It can also reduce traffic congestion due to flats caused by uneven tread wear. And, proper inflation can reduce pollution by improving the operating efficiency of your engine. So keep it up because—

It all adds up to cleaner air
